Nautilus Prime User Manual

Innovate the way you vape

EN

SAFETY INFORMATION

For a safe and effective use of this product and its accessories, we advise you to read the following instructions in full, and to strictly observe the operating procedures indicated in this manual and refer to the leaflet contained in the packaging of the individual products / accessories.

This product is intended for adult smokers. This product is not recommended for non-smokers, young people under the legal age, pregnant or breast feeding women and those experiencing general ill health.

Keep the product and its accessories out of reach of children and minors at all times!

COMPONENTS OF THE PRODUCT

This product is a high-tech product and its components such as the battery, the Type-C USB cable, and the pod part have been specifically made for this product. We recommend the exclusive use of components and accessories indicated. Use of components and / or accessories not specifically produced for this device may lead to a malfunction and / or damage to the product and to the cancellation of the warranty.

WARNINGS BEFORE USE

The use of an empty, dry or drained tankpod can cause immediate damage to the internal resistance and the consequent cancellation of the warranty.

GENERAL WARNINGS AND LIMITATIONS OF USE

Do not bring your vape device into contact with water or other e-liquid. Avoid exposing the device to too low or too high temperatures (-5° C / 50 °C). Avoid using the product in overheated or excessively damp environments. Keep the product and its accessories away from heat sources. Use only Aspire original spare parts and accessories. Always discharge the battery completely before recharging. Carefully read the composition of the e-liquid before use, and do not use the product with e-liquids if you are allergic to one or more of its e-liquid. Do not use the product if you suffer from respiratory and / or cardiovascular system disorders. Do not use the product during pregnancy or lactation.

Do not ingest or swallow any part of the product or its accessories and do not try to open or tamper with the components of the product or its accessories. The device does not need any flame to light it. To avoid performance losses, disconnect the battery from the USB charger when fully recharged, and in the case of anomalies, smell of burnt or abnormal deformation of one of the components of the device or its accessories, stop using it immediately and contact Customer Care.

Avoid direct contact of the e-liquid with the mouth which could happen if you inhale too strong and too frequently or if the tank is too full.

Avoid any unauthorized operations that may damage the product or an optimal performance of your vape device, it would be advisable to wait at least 5 seconds between two inhalation and the next. We recommend only to use the Aspire wall charger supplied to charge this device and not attempt to recharge the device with any other type of charger. We don't recommend using the product while charging.

Do not discard this product in the environment, and dispose of the product components in dedicated collection points.

SAFETY NOTE

To avoid instability always ensure you either lock or switch off your device when it is not in use. Especially when carrying your device in your pocket, bag or purse.

Contents:
1x Nautilus Prime Device (2000 mAh)
1x Pod (2.0 ml)
1x Nautilus 25 Mesh Coil 0.7Ω
1x Nautilus BVC Coil 1.8Ω
1x Type-C Cable
1x User Manual

Components View:

Specifications:
Battery capacity: 2000 mAh
Built-in battery: 1x 18650
Output nodes: VW/VB/PWSS
Output voltage range: 1-60W
Output voltage range: 0.5-6.0V
Support resistance: 0.1-3.0Ω
Continuous fire time: 10S
0.69" OLED screen
Type-C charging port
Dimensions (including drip tip): 45*90*23 mm

Coil Installation:
1. Remove the pod system.
2. Pull out the coil component.
3. Change the used coil.
4. Push the coil component back to pod.
5. Put the pod back.

Pod Filling:
1. Remove the pod system.
2. Add e-liquid (of the silicon seal).
3. Put the pod back.

When initialising a new coil, let the pod stand for 5 minutes after filling it to ensure the coil is completely saturated.

Do not let the pod become completely empty. Refill the pod to avoid dry hits and burnt coils.
